IN THE CLAIMS:

C 1
2. (Amended) The method of claim 1, wherein said prosthesis is expanded with a balloon catheter.

6. (Amended) The method according to claim 1, wherein said prosthesis is delivered intraluminally to said damaged lumen with a catheter.

C 2
7. (Amended) The method of claim 6, wherein said prosthesis is initially sized for intraluminal delivery with said catheter without need for rolling or bunching of said prosthesis.

8. (Amended) The method according to claim 6, wherein said prosthesis is expanded until a diameter of the prosthesis substantially conforms to that of said damaged lumen.

C 3
10. (Amended) The method according to claim 9, wherein said prosthesis is expanded following a period of growth in said child until a diameter of the prosthesis substantially conforms to that of a connecting host lumen which has experienced a period of circumferential growth.
